High School Calculator Requirements

All North Hills students taking Algebra 2, Algebra 2 Honors, Advanced Functions and Modeling (AFM), or PreCalculus in the Fall must have their own graphing calculator to bring to class daily. It needs to be a TI-83 or TI-84 in order for us to instruct and work together with the same buttons and functions. Any edition of these two models will work. You do not need to have a new one, but if you need to purchase a new model, we recommend that you buy the TI-84 Plus Silver Edition, Please feel free to contact Constance McGrail at 704-305-7583 if you have any questions.
